

To whom it may concern

18th December, 2008

Dear Sir/Madam,

LETTER OF RECOMMENDATION - FOR MISS SAADAT ZAKIRYAYEVA

I personally know Miss Saadat Zakiryayeva when she enrolled in the Institute of National Planning, the Demographic Center in Egypt. She reported and enrolled on January, 13, 2008 to the Institute upon her nomination by her National Government, Kyrgyzstan

The Demographic Center is an International Academic Institution established in 1963 through a cooperation of United Nations. To date, it is accredited by the United Nations Funds for Population Activities (UNFPA) to provide trainings to development practitioners in the field of Planning, Population and Development. In this international academic environment, Miss. Saadat Zakiryayeva showed academic intellectual maturity and successfully obtained an honorary Good Grade in General Diploma in Demography among her 2008 cohorts.

Despite the fact that Miss. Saadat Zakiryayeva completed her first degree some 12 years ago, her professional work has greatly facilitated her to understand the concepts, theories and practice of development and population related tasks which she ably translated in the academia. To this effect, for the one year I interacted with her both administratively and academically, I have found her to potentially able to handle an advanced graduate studies in an international environment more especially in development related subjects.

Miss. Saadat Zakiryayeva's research paper in partial fulfillment for the award of the General Diploma in Demography entitled "Fertility Determinants in Kyrgyzstan" which she adequately handled focuses on Factors Affecting Fertility, Family Planning and Health Improvement.

Finally, I wish to state that Miss Saadat Zakiryayeva has been very interested in learning from her contemporaries their on going program interventions. Besides, she does her academic assignments piously more over with less supervision.

Miss S.Zakiryayeva contacted me for this recommendation letter on 18th December 2008. I therefore strongly support her application for one of the Development related fields she applied for.

With kind regards,

Professor, A.M. Abdelghany
Director, Cairo Demographic Center
